L.A. Board of Airport Commissioners (BOAC)
Mayor Villaraigosa
Manager of Van Nuys Airport
Los Angeles City Council
Bob Hope Airport Authority

The Encino Property Owners Assn. (EPOA) has evaluated the proposed night-time curfew requested by the Bob Hope (Burbank) Airport. EPOA unanimously recommends support for the Burbank night-time curfew, with qualifications. The EPOA supports the residents of Burbank in their effort to achieve a night time curfew from 10 pm to 7 am., and recommend that the same curfew conditions be applied to Van Nuys through the VNY Part 161 Study.

However, should the Hope curfew be approved by the FAA, it is important that this same curfew conditions be adopted at the Van Nuys Airport to protect the surrounding residential areas of VNY. We object to any shifting of operations from Bob Hope, and do not want those aircraft landing at VNY, causing the same noise problems there that Burbank is attempting to eliminate.

The people living in the areas surrounding VNY need the same protection from excessive noise from late night take-off and landings as residents living near the Bob Hope Airport. We urge you to support a night curfew at both airports.

Thank You,

Diane Rosen,
Board Member,
Encino Property Owners Assn.
