Dear Commissioner Rothenberg:

During the May 1, 2008 meeting of the Van Nuys Airport Citizens Advisory Council (VNYCAC), the following motion was approved by a unanimous vote:

The Van Nuys Airport Citizens Advisory Council recommends to the Board of Airport Commissioners: "Whereas efforts at noise abatement of the type embodied in the Bob Hope Airport FAR 161 Request which includes a full-night time curfew at Bob Hope Airport are beneficial to the communities adjacent to Bob Hope Airport, the curfew requested may impact similar efforts of adjacent communities and airports; and, Whereas the failure of the VNY CAC to oppose the Bob Hope Airport FAR 161 Request may be deemed by the FAA as consenting to and approving the transfer of night time air operations from Bob Hope Airport to Van Nuys Airport (VNY) thereby limiting VNY's efforts to take similar action at such time as it submits its FAR 161 Request. VNY conditionally opposes the Bob Hope Airport FAR 161 request unless adjacent communities and airports are afforded the same curfew protections for nighttime air operations as contained in the Bob Hope Airport FAR 161 request".

Thank you for your consideration of this correspondence.

Very truly yours,

Robert Jackson, Chair
Van Nuys Airport Citizens Advisory Council
